

Caroline Josse,
Quality Director , DPO

TARGETING THE IMMUNE SYSTEM TO
ELIMINATE VIRAL AND INFLAMMATORY DISEASE

Data Protection Compliance Project

ABIVAX Scope

- French biotech company with sites in Montpellier and Paris
- Clinical stage Phase 1 to 2b molecules in Ulcerative Colitis, HIV and hepatocellular carcinoma
- Global drug development utilizing in-house expertise enhanced by external suppliers and contractors

Implementation of the project

Our choice: DPO nominated in house + expert support

- May 2018: GDPR Gap Analysis and definition of action plan
- 25th May : Implementation of Action plan
1st step: DPO nominated in ABIVAX because CNIL said DPO mandatory for all companies conducting clinical trials or observational studies.
DPO contact included in new ABIVAX website with DPO email address
- Since August 2018: Implementation of the regulation for Abivax activities with the support of PharMarketing

Statement

- At this time:
 - DPO email address: created
 - Registry of Personal data: done
 - Registry of Processes: done
 - Risk Analysis: done
 - Registry of personal data violation: done
 - GDPR clauses added to employees and vendors' contracts templates

On track for full compliance
